OBJECTIVE

I am an active and enthusiastic software engineering student with a deep interest in frontend and backend development. Able to self-study and solve problems well. Currently looking for internship opportunities to improve skills in React JS and Node.js and contribute effectively to creative projects.

EDUCATION

INFORMATION TECHNOLOGY

2021 - 2024

Vietnam College of Industry and Trade

Expected to graduate in[12/2024]

Related courses: Web Development, Software Engineering Principles, Database Administration.

PROJECTS

PROGRAMMER

ONLINE SALES MANAGEMENT (REACT JS, NODE JS)

01/11/2022 - 01/04/2022

Link : <https://trung142-my-shop.vercel.app/>

Link github: <https://github.com/Trung142/frond-end-reactjs>

Team size 01 (Personal Projects)

Technology description

Frontend :React js,Bootstrap 5,HTML,CSS(SCSS),ReactBootstrap

Description of main functions

- Developed a comprehensive web application for sales management using React JS for the frontend and Node.js for the backend.
- Implement features such as user authentication, product search, and shopping cart functionality.
- CRUD User, Use Axios to connect to Restful API, Import, export CSV file from User using React js, Login, Logout

PROGRAMMER

WORK MANAGEMENT SALES (REACT JS, NODE JS)

01/11/2022 - 01/04/2022

Link Github: https://github.com/Trung142/back-end-restful_api_nodjs

Team size 01 (Personal Projects)

Technology description

Backend: Node js. Express, Mysql,Docker,Postman

Description of main functions

LANGUAGES

English: Basic reading
comprehension and basic
communication
Vietnamese: Fluent

- Create a task management app to organize and track daily tasks and deadlines.
- Design responsive UI using React JS with features like task categorization and prioritization.
- Implement a RESTful API with Node.js and Express to fully handle CRUD functionality.
- Integrate JSON Web Tokens (JWT) to securely authenticate and authorize users.
- Use Postman to test APIs
- Mysql database
- Use Sequelize to Create Database
- Develop CMV standard code
